

CIRCULAR No2/11-06-2012

CATEGORY: TECHNICAL ISSUES & TECHNICAL DATA FILES

**Announcement:** Two (2) more files were added (May 24<sup>th</sup>, 2012) in the folder “SUPPORT 7” at the section “Technical Data Files” and are available for downloading:

- i) s7.5panepistimiou-ne.tif*
- ii) s7.6panepistimiou-sw-light.jpg*

**Question:** Why some Technical Data Files cannot be downloaded?

**Answer:** As soon as the competition website was launched, many visitors experienced problems while trying to download the Technical Data Files. Now, these technical difficulties are resolved and all the files are working properly. Thus, if you are still facing such kind of problems please report them again by submitting a new query through the website [www.rethinkathenscompetition.org](http://www.rethinkathenscompetition.org) by using your PAC.

**Question:** Why are some external references missing from the support files?

**Answer:** Support files consist mainly of drawings and pictures which offer critical parameters on the project and allow participants to work on them as indicatives. The drawings themselves are meant to be flexibly used as backdrops and general layouts by the participants. Hence, they already contain all the information required for participants to work on their proposals. Since their purpose is to familiarize the participants with the area of intervention, they are not supposed to contain all their external links or some of their external links should be redirected in order to be displayed. The participants may use the support files at their discretion as long as they consider them helpful for the production of their proposals.

**Question:** Is there a 3d model available at the Technical Data Files?

**Answer:** There is no 3d model available for the area of intervention except for the promotion video animation (<http://www.youtube.com/watch?v=POSNg-87v-8>), which is not totally accurate, though. Participants could also find useful 3d material available at <http://maps.google.com/> and [www.bing.com/maps/](http://www.bing.com/maps/).

**Question:** Some of the files of the folder “Support 1” at the Technical Data Files section do not open. Is this problem related to the fact that we are using AutoCAD 2010?

**Answer:** Generally we did not have this sort of complaint from any other participant. We have checked all the files of the folder “Support 1” and they all open with 2010 version of AutoCAD.

**Question:** The external reference (50412\_ΤΕΛΙΚΟ ΣΧΕΔΙΟ ΔΙΑΓΩΝΙΣΜΟΥ\_ΥΠΗΡΕΣΙΑΣ\_ΔΙΟΡΘΩΜΕΝΟ.dwg) of the file topo-rethinkathens\_plot.dwg (SUPPORT 01) is missing. Should we replace it with the file 50412\_teliko\_sxedio\_diagonismou.dwg?

**Answer:** Yes, you should replace the external reference to the file 50412\_ΤΕΛΙΚΟ ΣΧΕΔΙΟ ΔΙΑΓΩΝΙΣΜΟΥ\_ΥΠΗΡΕΣΙΑΣ\_ΔΙΟΡΘΩΜΕΝΟ.dwg with the file 50412\_teliko\_sxedio\_diagonismou.dwg. The first file was renamed in order to be readable by foreign users.

**Question:** We cannot download the file “Architectural Study English”. Is there any other way to get the file?

**Answer:** Probably, your internet connection is too low. Please try to download the above file using a computer with a faster internet connection.
